

COPD Diploma

This Diploma is suitable for Health Care Professionals who are caring for people with COPD.

The courses measurable learning outcomes have been benchmarked at level 5, using Ofqual's regulated qualifications Framework (RCF) level descriptors to allow participants to consider the depth of study, difficulty, and level of achievement involved.

The COPD Diploma has been accredited by the CPD certification service. Accredited CPD training means the learning activity has reached the required Continuing Professional Development standards and benchmarks. The learning value has been scrutinised to ensure integrity and quality. The CPD Certification Service provides recognised independent CPD accreditation compatible with global CPD requirements

Learning outcomes

- Recognise the signs and symptoms of COPD.
- Understand the principles of appropriate tests including spirometry to assist in confirming the diagnosis of COPD.
- Understand appropriate pharmacological and non-pharmacological management of a person with COPD.
- Be able to empower people with COPD to take control of their condition through gold standards reviews.
- Be able to apply evidence-based practice through use of protocols.
- Appraise an area of current practice by measuring it against pre-selected standards, in order to identify and implement areas for change

Course dates

Our e-learning certificate course is delivered via our VLE and contains presentations with audio, interactive quizzes, videos, resources and useful links. 1-2-1 Tutorials are available every month throughout the course via Zoom, or by telephone if you would prefer.
