

# Full Certificate in Spirometry

Any healthcare practitioner being asked to perform and interpret spirometry as part of their routine clinical practice should look to complete this certificate. This is a 2 day course.

The spirometry courses have all been accredited by the CPD certification service. Accredited CPD training means the learning activity has reached the required Continuing Professional Development standards and benchmarks. The learning value has been scrutinised to ensure integrity and quality. The CPD Certification Service provides recognised independent CPD accreditation compatible with global CPD requirements. Competency assessments are included within our course structure, and delegates will receive certification once the assessments are successfully completed. The course content follows ARTP quality assurance standards.

## Course dates

Our e-learning certificate course is delivered via our VLE and contains presentations with audio, interactive quizzes, videos, resources and useful links.
