

Evidence at your fingertips: An introduction to the NHS Knowledge & Library Hub

Course information

The [NHS Knowledge and Library Hub](#) connects NHS staff and learners to high quality knowledge and evidence resources in one place. This 45 minute session will provide an overview of how to access the latest research evidence and knowledge resources from this platform, including national and local e-resources.

Learning outcomes

Upon completion of this course you will:

- Understand how to access the NHS Knowledge & Library Hub enabling you to search journal articles, e-books, guidelines and clinical decision tools all in one place.
- Understand the search options available including combining results of different searches, adding limits to narrow your results, and saving your results and searches.
- Know how to access the full text of documents, as an immediate download or on request from your NHS Knowledge & Library Service.
- Know how to register for an NHS OpenAthens account which will provide you with full and free access to the resources available via the NHS Knowledge & Library Hub.
