

Blood Results made easy: Samples, results and actions

Course information

This session is a full day, delivered by Nicola Wood, Advanced Nurse Practitioner (MSc Long Term conditions)

During this informative session on Samples, Results and Actions you will learn about when, and just as importantly when not to request and send off samples.

Outline content

We will discuss and consider:

- The merits of sample analysis including blood tests as well as urine, stool and swab tests.
- Potential problems testing may bring both in terms of quiring samples and managing results of their analysis
- What actions it may be appropriate to take after receiving and interpreting a test result particularly considering this in the context of chronic disease reviews
